

# SPECIAL ENCLOSURES AE SERIES

## Optional NEMA 12 and NEMA 4X Enclosures for AE2X and AE4X Series Displays

For some applications where the environment is rough, or where there are hose down requirements, special enclosures may be required. Optional NEMA 12 and NEMA 4X Enclosures are available for most AE2X and AE4X Series Large Displays. All AE Series functions are available including, Multi-Function Clock/Timers, Elapsed Timers, Counters, 4-20 mA Process Indicators, RS232 Input Displays, BCD Input Displays, and other special functions. Refer to the specific brochures for more details.
