

HORN / BUZZER ASSEMBLY F-BZ51-24A1

24 VAC Horn/Buzzer Assembly with 100 feet of cable.

*Extra Horn / Buzzers
for the AP21-BP1 and MC41-BP1
Bell Programmers,
and other master clock systems.*

Low Power, Low Voltage, Low Cost - Easy to install

The F-BZ51-24A1 Horn / Buzzer Assembly provides an easy low cost solution for adding buzzers to the AP21-BP1 or MC41-BP1 Bell Programmer. Up to (4) F-BZ51-24A1's can be added to any AP21-BP1 or MC41-BP1 Bell Programmer up to 300 feet away.

For larger systems, heavy duty power modules are available. However, a heavy duty cable may be required for wiring the bells. Consult your system installer for more information.

For Plug-n-Play Bell systems see the AP21-BP1 and the MC41-BP1 brochures.
